# **Pupil premium strategy statement – The Grange Academy**

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the outcomes for disadvantaged pupils last academic year.

#### **School overview**

Detail	Data
Number of pupils in school	1150
Proportion (%) of pupil premium eligible pupils	53.1%
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended – you must still publish an updated statement each academic year)	2024 - 2027
Date this statement was published	December 2024
Date on which it will be reviewed	December 2025
Statement authorised by	Jamie Jardine
Pupil premium lead	Claire Hart (Secondary) Kate Ireland (Primary)
Governor / Trustee lead	Chris Inch

## **Funding overview**

Detail	Amount
Pupil premium funding allocation this academic year	£721,760
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year	£721,760
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

#### Part A: Pupil premium strategy plan

#### Statement of intent

The Grange Academy recognises that all students, regardless of their background, should have equal access to a curriculum that enables them to reach their potential. This includes building cultural capital and engaging all students in the highest standards of oracy.

#### Our aims are:

- 1. Improve attendance.
- 2. Maximise progress and attainment.
- 3. Improve Behaviour and Engagement (where required) including robust inclusion support for students who may struggle with barriers from external sources.
- 4. Increase participation in wider school life/ extracurricular activities; particularly those that increase social mobility.
- 5. Prepare students in a highly effective manner for the next steps in their education or employment.

At The Grange Academy, we recognise that one of our highest barriers to learning for disadvantaged students within our context is their attendance.

Disadvantaged students have been most effected nationally by the global pandemic; we strive through high quality first wave teaching, impactful interventions and holistic support around each child to undo lost learning time and rebuild resilience that may have been reduced. Central to our mission as a school is that we play a significant role in removing the stubborn link between poverty and academic underperformance.

### **Challenges**

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Overall progress and attainment.

	Overall progress and attainment of PP students is lower than NPP pupils across all phases. Lower attainment on entry in most year groups and consistent strands of poor communication upon entry in EYFS.
2	Attendance and persistent absence.  Our overall All Through attendance gap for PP vs NonPP is 6.1%  Some at Secondary are at risk of falling into the 'persistent absenteeism'
	category.  This challenge reduces their hours school hours and causes significant loss of learning opportunities, affecting progress and attainment.
3	Behaviour and attitudes to learning of PP students.  A disparity can be seen between PP and NonPP students in relation to their ATL and behaviour. Internal data including BSB referrals, behaviour points and exclusions is higher for this cohort of pupils.
4	Lower Cultural Capital.  Engagement of PP students in enrichment and personal development opportunities is generally lower than our NonPP students. They are missing opportunities to extend their cultural capital, explore friendship groups and build confidence. It has also been identified that some disadvantaged pupils lack background knowledge of the world around them and as a result
5	Literacy – vocabulary deficit and reading.  Our assessment and observations show that our PP students are more likely to have a tier 2 and tier 3 vocabulary deficit and reading comprehension issues that may be preventing them from accessing certain parts of the curriculum.

### **Intended outcomes**

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improve overall attainment across all phases.	Achieve outcomes in line with National Average for PP cohorts across for each phase.
	< 5%gap between PP and others across each key stage.
To achieve and sustain improved attendance for all pupils, particularly those disadvantaged pupils.	To reduce the gap between PP & NonPP all through attendance to less than 6%.
	A reduction in the difference between PP and NonPP attendance at Secondary.

	Reduce the number of persistent absentees (PA) amongst our Secondary PP cohort.	
	Attendance data will evidence improvement.	
To reduce the number of behaviour incidents and increase the attitudes to learning for disadvantaged pupils.	This will be evidenced through use of internal data on EduLink & SIMS including behaviour points and rewards data.	
	Exclusion data and BSB referral data will demonstrate a decrease in differences between those PP and NonPP.	
Improve the aspirations of all pupils, particularly those disadvantaged.	Internal data will be used to track and monitor engagement figures with extracurricular and enrichment opportunities. activities.	
	Increase engagement visits with further educational settings.	
	Reduced NEET figure.	
Improved Literacy outcomes for all pupils, including their vocabulary deficit and comprehension.	Observations, diagnostic analysis and student attainment will show that:	
	<ul> <li>Students will be able to use the vocabulary in a variety of context, both within subjects and across difference subject areas.</li> </ul>	
	<ul> <li>Students will be able to read fluently across all subjects which will enable them to fully access the curriculum.</li> </ul>	
	<ul> <li>All students will be able to access ideas and knowledge beyond their starting point.</li> </ul>	
	<ul> <li>Improved oral contribution within lessons demonstrating a confidence with subject specific vocabulary.</li> </ul>	
	<ul> <li>Improved reading ages for those pupils below expected.</li> </ul>	

## Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium) funding **this academic year** to address the challenges listed above.

### **Teaching (for example, CPD, recruitment and retention)**

Budgeted cost: £360, 880

Activity	Evidence that supports this approach	Challen ge number (s) address ed
Deliver, evaluate and monitor the impact of a robust CPD programme for all staff to ensure high quality teaching across all phases.	The best available evidence indicates that great teaching is the most important lever schools have to improve pupil attainment (EEF, 2021). High quality teaching will have the greatest impact on outcomes for all students, including the narrowing of the disadvantage gap.  The quality of teaching is not fixed: teachers can be improved, and this can be done via effective professional development (Becky Francis, 2021).  https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/effective-professional-development  The introduction of our Teaching & Learning simplified lesson model that has been cascaded whole school: I do, We do, You do. Each of the pedagogical principles based on the work of Alison & Tharby, 2018) are incorporated into the phases.  A coaching programme has been introduced to upskill teaching: All Senior Leaders and Lead Practitioners coach staff members within school, in line with our Teaching and Learning model. CPD time is prioritised for this.  Diagnostic assessment should be used to reflect on pupils' thinking, strengths and weaknesses. When used effectively they can indicate areas of development, with individual pupils or across classes and year groups; they can help teachers isolate specific misconceptions pupils might hold (EEF, 2021 Diagnostic Assessment).  https://d2tic4wvo1iusb.cloudfront.net/documents/news/Diagnostic Assessment Tool.pdf  According to the EEF (2021) feedback can be one of the most powerful levers teachers have to improve learning. Schools	1 2 3 4 5

	Lay the foundations for effective feedback, with high quality teaching that includes careful formative assessment     Deliver appropriately timed feedback which focuses on moving learning forward     Plan for how pupils will receive and use feedback using strategies to ensure that pupils will act on feedback offered.  https://educationendowmentfoundation.org.uk/news/eefpublishes-new-guidance-report-teacher-feedback-to-improve-pupil-learning	
Bespoke CPD program for our Early Career Teachers.	Teachers deserve high quality support throughout their careers, particularly in those first years when the learning curve is the steepest (DFE 2019, Early Career Framework) therefore in addition to the support provided by Best Practice Network in the delivery of the ECF, a bespoke professional development program has been developed to suit the context of our Academy and the development of our ECTs.	1 2 3 4 5
	https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/978358/Early-Career_Framework_April_2021.pdf	
Development of Literacy across all phases.	https://educationendowmentfoundation.org.uk/education- evidence/teaching-learning-toolkit/reading-comprehension- strategies	1 3 5
	It is important to identify the appropriate level of text difficulty, to provide appropriate context to practice the skills, desire to engage with text and enough challenge to improve reading comprehension. Through our implemented rotational 'fast reading' programme, we are facilitating the development of Literacy through the curriculum for all.	
	In the secondary schools where teachers in all subject departments had received training in teaching literacy there were improvement in outcomes across all subjects – not only English (Ofsted, 2011 – Removing Barriers to Literacy).	
	Young people who leave school without good literacy skills are held back at every stage of life. Their outcomes are poorer on almost every measure, from health and wellbeing, to employment and finance.	
	Disciplinary literacy is an approach to improving literacy across the curriculum. It recognises that literacy skills are both general and subject specific, emphasising the value of supporting teachers in every subject to teach students how to read, write and communicate effectively in their subjects.	

	Guidance reports for Improving Literacy KS1, KS3 and Secondary Schools. <a href="https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports">https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports</a>	
Effective use of remote learning to support attendance barriers.  Use of Teams to ensure the curriculum is accessible for all pupils.	According to the EEF (2021) Covid has potentially reversed a decade of progress in closing the attainment gap. Disadvantaged pupils have fallen further behind during the pandemic therefore as an Academy we need to ensure remote access to the curriculum is available for all pupils including the use of an online platform (Teams) and access to a device and the internet to support learning.  Quality remote teaching is more important than how lessons are delivered (EEF, 2020). Teachers need to ensure explanations builds clearly on prior learning and understanding is continually checked. The review on Remote Schooling conducted by the EEF highlights the importance of access to technology and states that monitoring the progress of pupils and getting pupils to interact online can boost the effectiveness of it.  https://educationendowmentfoundation.org.uk/news/eef-	1 2 3 5
	publishes-new-review-of-evidence-on-remote-learning	
Recruitment and retention of teaching staff – to engage with external CPD opportunities including National Professional Qualifications (NPQs).	Managing workload and offering effective professional development opportunities are key to retaining great teachers, which is crucial to maintaining a high standard of teaching and learning.  https://d2tic4wvo1iusb.cloudfront.net/eef-guidance-reports/effective-professional-development/EEF-Effective-Professional-Development-Guidance-Report.pdf?v=1635355217	1 2 3 4 5

		ssed

Additional staffing across the phases for small group intervention including subject specific intervention.  Robust tracking &	Intensive support (small group or one to one) can support pupil learning if provided in addition to and explicitly linked with normal lessons.  https://d2tic4wvo1iusb.cloudfront.net/production/docume nts/pages/Tutoring Guide 2022 V1.2.pdf?v=16684391 20	1 2 3 5
monitoring of interventions.		
Targeted interventions to support language development, literacy and numeracy.  Reading support including the role of a Reading Support Coordinator, Lexonik, Lexonik LEAP, IDL, Accelerated Reader.	Targeted academic support can support pupil progress and can be employed to help boost language development, literacy, or numeracy as well as other subject areas. Interventions should be carefully linked to classroom teaching and matched to individual pupils' specific needs, while not inhibiting their access to the wider curriculum.  https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/small-group-tuition  https://educationendowmentfoundation.org.uk/guidance-forteachers/literacy	1 2 3 5
NGRT Reading Test to diagnostically organise reading intervention.	teachers/mathematics	
Targeted interventions and resources to meet the specific needs of disadvantaged pupils with SEND.	Disadvantaged pupils with SEND have the greatest need for excellent teaching. Specific approaches to support these pupils may include explicit instruction, cognitive and metacognitive strategies, scaffolding, flexible grouping, and the targeted use of technology.  https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/teaching-assistants  https://d2tic4wvo1iusb.cloudfront.net/eef-guidance-reports/send/Five-a-day-poster 1.1.pdf	1 2 3 5
Teaching assistant deployment and interventions - for example, by supporting high quality provision within the classroom and	Strategic deployment of teaching assistants is important to ensuring that priority pupils are supported. TAs should be fully prepared for their role in any given lesson or intervention and their input should supplement (rather than replace) high quality provision from the class teacher. <a href="https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/teaching-assistants">https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/teaching-assistants</a>	1 2 3 5

delivering targeted interventions		
Extending the school day (P6) - Y11 Revision	There is some evidence to suggest that disadvantaged pupils might benefit more from additional school time. The average impact of approaches involving extending school time is about an additional three months' progress over the course of a year.	1 2 3
	https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/extending-school-time	
Access to additional revision materials including revision guides & online platforms – SENECA, Corbett Maths, TT Rockstars & Pearson Revise.	The EEF reports an average of +5 months progress through the effective use of homework. Homework that is linked to classroom work tends to be the most effective, with teacher feedback significantly increasing the impact it has on learning. <a href="https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/homework">https://educationendowmentfoundation.org.uk/educationevidence/teaching-learning-toolkit/homework</a>	1 2 3 5

## Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £180,440

Activity	Evidence that supports this approach	Challenge number(s ) addresse d
Attendance Improvement strategy.  • Attendance team calls/tracking (phone calls, parental meetings, targeted letters)  • Attendance tracker and meetings  • Home visits • Family support worker	It is crucial to consider how to engage with all parents to avoid widening attainment gaps.  Consider how to tailor school communications to encourage a positive dialogue about learning.  There is some evidence that personalised messages inked to learning can promote positive interactions.  Consider what support you can give to parents to ensure home learning is of high quality. For example, providing practical strategies with tips, support and resources to assist learning at home may be more beneficial for pupil outcomes than simply gifting a book to pupils or asking parents to provide generic help to their children. <a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/parental-engagement">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/parental-engagement</a>	1 2 3 4

<ul> <li>Friday 60 second         Attendance shakedown (whole school attendance update)     </li> <li>PA Strategy</li> <li>Attendance strategy Provision 'The House'</li> </ul>	According to the EEF's Attendance interventions rapid evidence assessment, research has found that poor attendance is linked to poor academic attainment across all stages (Balfanz & Byrnes, 2012; London et al., 2016) as well as anti-social characteristics, delinquent activity and negative behavioural outcomes (Gottfried, 2014; Baker, Sigmon, & Nugent, 2001).  However, evidence suggests that small improvements in attendance can lead to meaningful impacts for these outcomes  https://educationendowmentfoundation.org.uk/education-evidence/evidence-reviews/attendance-interventions-rapid-evidence-assessment?utm_source=/education-evidence/evidence-reviews/attendance-interventions-rapid-evidence-assessment&utm_medium=search&utm_campaign=site_search&search_term=attendance	
<ul> <li>Pastoral/Progress Year Groups</li> <li>Safeguarding team</li> <li>Learning Mentors (x1 full time staff member)</li> <li>Hub Intervention</li> <li>The Living Room Intervention</li> <li>ASD Base</li> <li>Careers Guidance &amp; Mentoring</li> <li>THASP (The Happy at School Project training for all staff</li> <li>After school clubs</li> </ul>	Alongside academic outcomes, SEL interventions have an identifiable and valuable impact on attitudes to learning and social relationships in school.  SEL interventions in education are shown to improve SEL skills and are therefore likely to support disadvantaged pupils to understand and engage in healthy relationships with peers and emotional self-regulation, both of which may subsequently increase academic attainment.  The average impact of successful SEL interventions is an additional four months' progress over the course of a year. <a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/social-and-emotional-learning">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/social-and-emotional-learning</a>	1 2 3 4
Behaviour  • School behaviour strategy and monitoring	Behaviour interventions seek to improve attainment by reducing challenging behaviour in school.  Evidence suggests that, on average, behaviour interventions can produce moderate improvements in	1 2 3 4

systems -	-
EduLink	

- Pastoral and Progress Leads for each year group (Secondary)
- High expectations for all
- Rewards & incentives

academic performance along with a decrease in problematic behaviours.

Across all approaches it is crucial to maintain high expectations for all pupils and to embed a consistent approach across the school. Successful approaches are linked closely to social and emotion learning interventions and parental engagement approaches.

https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/behaviour-interventions

Total budgeted cost: £ 721,760

#### Part B: Review of the previous academic year

#### Outcomes for disadvantaged pupils.

The school strategies were implemented across all tiers with some evidence of a positive impact across all elements of the tiered approach.

Primary attainment (EYFS, KS1 & KS2 scores) demonstrates that the gaps between PP and nonPP are smaller than National differences. High quality teaching means that all students benefit from excellent classroom practice and the effective use of targeted interventions means the gap difference against National is improving.

At Secondary, our A8 target gap for PP vs NonPP has not yet been achieved however there was an improvement in some key subject areas such as English, which will help support students in their long-term goal. The gap between our PP vs Non PP P8 score has also improved from the previous academic year. We also had our largest number of PP pupils accessing Ebbac in the last Academic year.

NonPP pupils still attend school more regularly than PP students where the difference is greater in the secondary phase. There are however a number of students with long term attendance issues that significantly impact these levels. Use of the Emotional Based School Absence strategy has enabled us to work with these pupils and for some this has meant they have returned to school. We have found an increased number of pupils who struggle with emotions, anxiety and mental health which greatly affects the attendance levels across the school (most significantly in the secondary phase). As part of our ongoing strategy a significant amount of work has been completed with the Educational Psychologist, the School Attendance Team as well as Mental Health Services to provide ongoing support for these pupils and their families.

While targeted academic support strategies were well designed and well attended, change in leadership roles has meant new strategies have been implemented this Academic year to support the implementation of our curriculum through high-quality teaching that will improve outcomes for all pupils; a more strategic approach to wider strategies will also be used to address our Academy challenges.

As part of the review process Literacy has been identified this academic year within our Pupil Premium Strategy as one of our challenges.
